BOOK SYNOPSIS

Build Inexpensive Powerful Blowers For Many Uses. Build a Dust precipitating cyclone, design sheet metal transition pieces, balance a dust collection system, build a static balancing stand and more. Learn how to build a simple manometer and pitot tube and actually measure and fine tune your custom air system. This book will show you how to take pillow blocks, shafting, plywood, sheet metal and other common materials and build a dirt cheap blower that will outperform just about any make-do blower you might find on the surplus market. Let Dave Show you how easy it can be to design a fan that will provide the volume and pressure you need for the system you are building.

HOW TO DESIGN & BUILD CENTRIFUGAL FANS FOR THE HOME SHOP -

Are you looking for Ebook How To Design & Build Centrifugal Fans For The Home Shop?
